ANOTHER PLAN

Ex-Secretary Charles Foster on the Extra Session.

How He Would Regulate the Finances.

The National Banking Law Should Be Liberalized.

NO TARIFF-TINKERING IS DESIRABLE.

Additional Failures Reported—National Banks in Louisville and Milwaukee Suspend.

The Cashier of a Defunct Texas Bank Commits Suicide.

By Telegraph to The Times.

NEW YORK, July 25.—(By the Associated Press.) The World prints the following letter from ex-Secretary of the Treasury Foster, in reply to a request for an opinion as to what the extra session will accomplish: "You ask what Congress will do? As the team is a very wild one, composed of all kinds of material, much of it unbroken, and more of it badly trained, it is quite uncertain whether they can be so groomed and fed as to enable a skillful and really able driver to successfully avoid the quicksand and to round the curves and surmount the obstacles that abound in the road so as to bring it into the haven desired."

"It is alleged that Bourke Cockran said during the late campaign that the platform was made 'to get in on, not to stand on.' This view of party obligations will probably be accepted. I guess that the House will adopt the rules and rulings that prevailed during 'Czar' Reed's speakership, and will in some form, after a prolonged, exciting struggle, repeal the purchasing clause of the Sherman law, with some kind of a substitute expressed in an act or agreed to be passed afterward, to which the Senate, after another exciting struggle, will probably agree."

"After a session of eight or ten months some kind of a moderate tariff act will be passed without much resemblance to the platform. What ought to be done? Repeal the purchasing clause of the Sherman act, repeal and strengthen, if necessary, the clause requiring the Secretary to maintain the parity of gold and silver; require the Secretary to keep a gold reserve of \$100,000,000 for old legal tenders and also gold equal to 20 per cent. of the treasury notes issued for purchased bullion; authorize the issue of silver certificates for bullion only to be put in circulation as treasury notes are retired; authorize the issue of 3 per cent. bonds as preference to the gold bonds now at the command of the Secretary; increase the revenues so as to enable the Secretary to increase his gold to a point indicated without the sale of bonds; liberalize the national banking law by permitting banks to issue notes up to par or bonds for an amount equal to the capital and surplus, and reduce the tax one-half. As, in my opinion, the prospective action of Congress on the tariff is doing more to impair values and destroy confidence than all else, I would have it promptly declare that it would not legislate on this subject."

IN INDIANAPOLIS.

A United States Depository Closes, Tying Up Small Amount.

INDIANAPOLIS, July 25.—(By the Associated Press.) The Bank of Commerce did not open its doors this morning, nor did the Indianapolis National Bank.

A statement of the Indianapolis National Bank made July 12 showed resources, \$2,312,154; liabilities, due depositors, \$1,944,586; United States deposits, \$192,100; deposits of United States disbursing officers, \$106,900; due other national banks, \$146,463; due State banks, \$73,779; notes and bills rediscounted, \$1,121,154; liabilities, due depositors, \$2,312,154; surplus, \$100,000; undivided profits, \$44,448. The Indianapolis National Bank was considered one of the strongest banks in the city, and was a designated depository of the United States.

President Theodore Haughey last night consulted with other banks, having previously secured \$50,000 to tide him over yesterday. He said the failure at Louisville and New Albany had aggravated the situation, and it was thought best to suspend.

While the Indianapolis National Bank was a United States depository, but \$242 of its funds was tied up. Cashier Rexford was asked if the withdrawal of funds by the country banks was not largely responsible for the suspension. "The stringency of the times," he replied, "has greatly reduced those balances. At this time of the year, they have heretofore been large."

The real trouble of the Bank of Commerce began at the failure of the Premier Steel Company. There have been drafts on the bank ever since then. The publication of Depauw's failure hurried things along. The failure of the Indiana National Bank shut off their chances of getting help, and the bank had to close. The indebtedness is said to be \$150,000.

LOUISVILLE BANKS.

The Merchants' National and Fourth National Banks Suspend.

LOUISVILLE (Ky.), July 25.—(By the Associated Press.) The Louisville Deposit Bank and the Merchants' National Bank have suspended.

There were runs on several other banks, mostly small ones, but all stood firm. The failure of the Merchants' National was caused by withdrawals by country banks. The Deposit Bank was not a member of the clearing-house, and none of the

other banks would assist it.

The Fourth National Bank failed as a result of the panic caused by the failure of the others. None of the failures are considered bad. The depositors of the two national banks will be paid in full. The Merchants' National has a capital of \$500,000; the Fourth National a capital of \$300,000, and a surplus of \$75,000, and the Deposit Bank a capital of \$300,000, and a surplus of \$600. The Fourth National had also undivided profits of \$7,500.

The Merchants' Bank had a surplus of \$100,000 and undivided profits of \$21,354.

The Deposit Bank's statement showed undivided profits, \$19,155.

Shortly after the announcement of the Deposit Bank, President Schwartz filed an individual assignment of all his personal property to the same assignee.

The Sweetwood Distillery Company also made an assignment. Mr. Schwartz being the president of the company.

No statement has yet been prepared. Jacob Schwartz, brother of the bank president, and who has been in the bank business a number of years, suspended late this evening. He owes \$70,000.

A GIBRALTAR.

Milwaukee Citizens Surprised at Failure of an Old Bank.

MILWAUKEE, July 25.—(By the Associated Press.) The Wisconsin Marine and Fire Insurance Company's Bank closed its doors this morning. The people had become imbued with the idea that this old bank was a Gibraltar of finance, and could not credit the report that it was closed.

It was the general belief that when all other banking institutions disappeared from the face of the earth, the bank which Alexander Mitchell founded would continue to do business at the old stand. Capher Murphy says that the bank has been subjected to a heavy strain, and the end was inevitable, but that the bank is not insolvent, and a little time to meet every liability is all that is needed.

Washington Becker was appointed receiver. The city of Milwaukee has \$1,000,000 in the bank, and will probably have to temporarily suspend payment.

The bank was the depository of the Chicago, Milwaukee and St. Paul Railroad, and arrangements have been made for the payment of checks drawn on that bank by the Wisconsin National Bank.

The bank commonly known as Mitchell's bank has failed. A notice on the door says they closed on account of the monetary stringency. A statement on July 1 places the resources at \$8,946,341; liabilities due depositors, \$7,870,594; due to others, \$500,000. The bank had a capital of \$500,000, of which John L. Mitchell holds \$313,390, David Ferguson \$166,600, Washington Becker \$20,000 and J. B. Murphy \$100,000. The undivided profits are \$75,841.

As a consequence of the failures, runs were at once started on a number of other banks, but at each the large depositors came to their assistance, and the officers assured those interested that they were perfectly safe. The general opinion is that the worst is past.

THE ERIE.

Placed in the Receiver's Hands to Protect Its Interests.

NEW YORK, July 25.—(By the Associated Press.) The World says that the Erie Railroad Company today went into the hands of a receiver. John King and J. G. McCullough were named by Judge Lacombe of the United States Circuit Court. The Erie's credit has been savagely attacked in Wall street, of late, owing to the mixed condition of its finances. Under a resolution of the board of directors, the Executive Committee met today and adopted resolutions placing the road in the hands of receivers, and in order not to sacrifice the best interests of the company and to preserve the system intact a receivership was decided upon.

LIABILITIES UNKNOWN.

WASHINGTON, July 25.—The Comptroller received a dispatch this morning stating that cashier Lomax of the Erie National Bank of New York, who failed Saturday, committed suicide by shooting himself this morning.

A TRAIN DERAILED.

A World's Fair Excursion Meets With an Accident.

CLEVELAND, July 25.—(By the Associated Press.) A World's Fair excursion train on the Pittsburgh and Western road was wrecked near Akron this morning. Three coaches were derailed and thrown over an embankment. In all, twenty-one persons were seriously hurt, three being fatally injured. Physicians were at once sent from Akron, and the injured were taken to the hospital in that city. Most of the passengers were from Washington and Baltimore. The fatally injured are: J. H. Merrick, Humeston, Iowa; Judson Hunt, Philadelphia; Letta Hunt, Baltimore.

It is marvelous that a lot of people were not killed. The sandy roadbed, rotten ties, heavily-loaded train and fast running over a sharp curve were the causes of the wreck.

There were nearly four hundred passengers on the train, and the three rear coaches left the track, being precipitated down a ten-foot embankment. Two of the coaches turned over and over, and that the inmates escape with their lives is considered wonderful. Many were pinned under the wreck for some time, and all suffered painful cuts and bruises.

A FAUX PAS.

A Dead Man Appointed Receiver of a Land Office.

SPOKANE (Wash.) July 25.—(By the Associated Press.) A commission was received here today from Washington appointing W. G. Langford Receiver of the Waterville Land Office. A remarkable circumstance in connection with this is the fact that Mr. Langford has been dead for the past three months. He served as United States Judge under Cleveland's former administration. An effort will be made to have the appointment bestowed upon his widow.

England and China Disturbed About the Matter.

THE ROYAL PALACE TO BE ATTACKED.

Admiral Humann's Fleet Bound for Its Destination—Fear That Natives May Riot in Bangkok—The King Declines to Cede.

By Telegraph to The Times.

PARIS, July 25.—(By Cable and Associated Press.) Yesterday's announcement that France would notify the powers of her intention to blockade the coast of Siam was premature. They had not been notified yet. A conference between the Foreign Office and the British Ambassador, on the Siam question, will be held tomorrow.

A Cabinet council was held today, at the conclusion of which a semi-official statement was issued to the effect that in conformity with the unanimous vote of the Senate and Chamber the government had taken such measures to safeguard the interests and dignity of France as were considered, from the Siamese reply to the French ultimatum; to have been rendered necessary.

PAVIE LEAVES.

BANGKOK, July 25.—M. Pavie, the French Minister, started down the river this afternoon on the warship Inconstante, accompanied by the warships Lutin and Comete. All is quiet in the city. The Saigon division of the French fleet, commanded by Admiral Humann, sailed today for the Gulf of Siam.

LONDON ADVICES.

LONDON, July 25.—In the Commons today, the Conservatives worried the government with many minute questions as to what was being done in Siam to care for British interests. Sir Edward Gray said that Great Britain had received from France a verbal notice of an intent to blockade the Siamese coast. The British government would see to the protection of British subjects and their property.

Further communications he might make to the House must depend upon communications now passing between Great Britain and France.

The Times' Bangkok correspondent says great uncertainty prevails as to what will happen if the blockade begins tomorrow. British residents will meet the British Minister tomorrow to complete measures for defense in case the dangerous classes, derived by the blockade of employment, attempt to rise and loot the city. It has been arranged already that landing parties from the foreign gunboats shall occupy strategic points. The Siamese will probably also quarter a detachment of troops in the most populous districts. The government has issued a proclamation warning the populace to behave peaceably and refrain from attacking foreigners. A late dispatch to the Times from a semi-official source says that at 11 o'clock the French vessels passed the mouth of the Menam River and exchanged salutes with the Siamese forts. The Paris correspondent of the Standard says that it is stated semi-officially that the blockade will not be confined to the estuary of the Mekong River, but also to the rivers and canals west of it. It is said that there is no intention to bombard Bangkok, although the batteries on both sides of the river will be destroyed, and the royal palace, where 12,000 soldiers are believed to be massed, will be attacked and occupied.

CHINA OBJECTS.

TIEN TSIN, July 25.—The Chinese government received the news of France's territorial demands upon Siam with amazement and indignation. That France should lay claim upon the country up to the twentieth parallel is regarded as an intrusion upon the rights of China, for at Peking the contention is that both banks of the Mekong to a point well south of the twentieth parallel are Chinese possessions. The Mandarin party, which is bitterly anti-French, is trying to force the government to interfere.

PARIS, July 25.—The Chinese Charge d'Affaires called today on Delle and explained the Chinese views of the Franco-Siamese dispute.

NEW YORK, July 25.—The Herald's Bangkok special says that Siam refused to cede the Mekong frontier above latitude 18. The general opinion here is that the refusal is ill-advised. The foreigners engaged in the service of Siam will, for the most part, resign in event of war, and a serious defense of the country is therefore impossible.

VANDEVER'S FUNERAL.

The Dead General Laid Away at Ventura With Ceremony.

VENTURA, July 25.—(By the Associated Press.) The remains of Gen. William Vandever were laid to rest today, a large concourse of people, the veterans of the G. I. A. R. and the National Guard participating. Business houses were closed and flags were at half-mast. The services were conducted by the Minister of the Presbyterian Church, of which the deceased was a member.

Drifting Ashore.

SAN FRANCISCO, July 25.—A large ship, apparently inbound, was reported to be drifting toward the shore off Point Reyes. Owing to the dense fog her name was not ascertained. Two tugs have gone to her rescue.

DYNAMITE EXPLOSIONS.

A Factory Destroyed With Loss of Life Near Havre.

PARIS, July 25.—(By Cable and Associated Press.) Four explosions shattered the Ablon dynamite factory in Havre, near Havre, this afternoon. Nine men are known to have been killed, twenty more wounded severely and others hurt seriously. Several bodies are believed to be under the burning ruins.

PENNOYER'S PRATTLE.

He Instructs the Democracy in the Way in Which It Should Go.

PORTLAND, July 25.—(By the Associated Press.) Vice-President Stevenson and party arrived here this morning. At Salem, the Vice-President was welcomed to Oregon by Gov. Pennoyer, who, in his speech, called attention to the hard times prevalent in Oregon, and attributed the business trouble to the financial policy of the government during the past two years.

He declared that the simple repeal of the Sherman law would be violation of the pledge of the Democratic party to the people, and calls on the Vice-President to use his influence toward securing the use both of gold and silver as the standard money of the country.

In reply, the Vice-President said he would endeavor to co-operate with those who have in view the best interest of the common people of the land.

The Diseased Outlaws Have Now Been Captured.

The Provisional Government Still Hopes for Annexation.

Blount Desires of Returning Home: The Political Situation at the Islands: A Good Financial Showing.

By Telegram to The Times.

HONOLULU, July 25.—(By Associated Press.) The Associated Press, via San Francisco, July 25.—The Hawaiian Islands have been fought between the troops of the provisional government and Koolau, the leper outlaw of Kauai, in which three men were killed. Koolau escaped with his wife and child over the divide. A reward of \$1000 has been placed upon his head by the government. On July 5 a steamer arrived from the valley of Kalaiala, Kauai, giving full particulars of the battle fought between the government forces and the leper bandit Koolau, who was driven away by bayonet and rifle fire. The leper, who had been taken refuge, skinned by the troops on July 4, and a squad advanced to the head of horsehoe-shaped valley. A trail was soon discovered leading upward. It was followed 500 feet up the cliff toward the ridge, where the vines and tropical growth. Three of the lepers were taken into custody. The leper Koolau was shot through the chest and recovered the next day some distance from where he was shot. The wound had been plugged with fern leaves.

On the morning of July 5 another advance was made, in which Private McCabe, a veteran of the Ninth Rhode Island Regiment, was shot and instantly killed by lepers, and Private Herschberg was accidentally killed by the discharge of his rifle. One of the men, Johnson by name, barely escaped with his life by losing his footing and rolling down the steep hillside over six hundred feet. The leper Koolau was next, Krupp field guns were dragged up the divide and an attempt was made to shell the lepers' stronghold. During the day leper spies were sent out and were so successful in treating with the lepers that Koolau had induced to join him that by night, after the firing had ceased, all of the lepers had surrendered and were brought into Camp Bolo on the beach at the mouth of the valley, except Koolau, his wife and child. The boy is a leper, but the wife is not. In the official report to Honolulu it was stated that Koolau would likely escape into the mountains back of the valley. This, with the rumors of friction between the troops and the police, caused Atty-Gen. Smith to visit the seat of the trouble at once, with more soldiers and the supply of food. The leper Koolau was then determined to abandon the fruitless search. The government has since set a reward of \$1000 on the head of Koolau, who is believed dead or alive, and it is only a matter of time until the natives will deliver him to justice.

The bodies of the dead lepers were exhumed, placed in lead coffins and removed to the cemetery where they were buried with military honors of twenty-five lepers in the valley. Twenty-three have been captured and will be taken to the leper colony. The reward was offered a party of three white men has been organized to capture or kill Koolau. They have been returning to the valley this evening, and expect to get their man by keeping under cover and waiting until the leper murderer returns to the valley.

THE SITUATION. The political situation has not materially changed. Minister Blount says absolutely nothing, but has hinted much of encouragement to the leading annexationists. He has also said that Minister Blount states that he hopes to be relieved by the next mail, so that he can return by the steamer Monowai, which will be returning to Honolulu on the 27th. It is reported that he has given the provisional government to understand that nothing will be done until he sends back his report, which may be expected upon during the extra session of Congress next August.

The treaty previously mentioned in these dispatches, which was drawn here to be submitted to the United States government, has been discussed and passed by the Hawaiian cabinet. The latest reports concerning the document are that it is a straight treaty of annexation, which will be submitted to the Hawaiian people. The instructions will not limit Thurston's action in getting the best terms he can.

From all that can be learned from seemingly reliable sources, it looks as though the provisional government intends carrying out a more aggressive policy in case the United States refuses the proposition to annex the islands, and while nothing definite is known, it is said that the Hawaiian official circles that in case the provisional government is forced to prepare to stand alone in the near future, the first step that will be taken is to take to sea in all the available ships, and to take to sea in all the available ships, and to take to sea in all the available ships.

On July 13, Minister Damon made an exhaustive financial statement before the Hawaiian people. It was a statement of the Hawaiian government's financial condition, showing a deficit of \$100,000. The statement was made in the presence of a large number of Hawaiian officials and the public. The statement was made in the presence of a large number of Hawaiian officials and the public. The statement was made in the presence of a large number of Hawaiian officials and the public.

plus of over \$20,000. This showing is made for July, the highest money month in years. The Minister stated that there was ample provision for meeting all expenses and debts falling due before December 15, when the taxes begin to come in.

The government has decided to refuse to issue bonds as requested for the amount of \$40,000 due to the Hawaiian Bank of San Francisco, and the amount will be paid next December with interest. Hawaiian bonds are having a steady sale, and the proposition submitted by the Hawaiian Bank through Claus Spreckels & Co. asked for a discount which would allow of the bonds being converted at once into money.

PAUL NEUMANN. Last week Hon. Paul Neumann issued an appeal in the form of an open letter to President Dole, demanding that the proposal of annexation be left to a popular vote. The annexationists claim that Claus Spreckels' hand directed the appeal. It was attacked on the following day in the newspapers by a prominent Royalist, who expressed the opinion that Neumann's appeal was but another form of asking for a fee to head a political party.

Minister Blount has concluded his report on Hawaiian affairs, and will probably submit it to the President. The report is said to be a very favorable one, and will probably result in the Hawaiian Islands being taken over by the United States.

ANOTHER DELAY.

The Hamilton Divorce Case Continued.

Illness of the Defendant the Alleged Cause.

How Henry Schmit Tried to Escape His Creditors.

The Second Day of the Quon Tey Ying Murder Trial—Testimony of Witnesses for the Prosecution—Notes.

There was another postponement ordered in the Hamilton divorce case yesterday, it appearing that the defendant, Sam Hamilton, was ill, and unable to attend court in person. Before any proceedings were taken or orders made, Mr. Valentine, counsel for the wife, arose and stated that Mrs. Hamilton had lived away from home for some time through fear of her husband, and that, as the residence property belonged to her alone, she would like to be allowed to occupy the place. This she could not do if Hamilton was allowed to remain there.

C. C. Stephens, Esq., on the other side, had also something to say. He stated that, to his knowledge, Mr. Hamilton had written several letters to his wife, asking her to return to the house, and promising that he would not trouble her in any way if she did go, to which Mr. Valentine replied that such promises had been made before, and that Mrs. Hamilton, in this instance, would have no assurance that they were to be relied upon.

The court held that it was very clear that the law declared the home of the wife to be the abiding place of the husband so long as the two were married, and intimated that he could not legally direct that the husband vacate the premises.

Mr. Stephens then suggested that an order be made allowing Mrs. Hamilton to return home and take a friend with her, and that Hamilton be instructed not to molest her in any way. Judge Van Dyke saw no other solution of the difficulty, and made the desired order. The case was then continued, to be reset.

It was evident that the order was not at all satisfactory to Mrs. Hamilton, for she undoubtedly was not willing to run the risk of being ill-treated as she already has been while living under the same roof with her husband.

COLLECTED THE BILL.

Henry Schmit, who formerly ran a restaurant on Broadway, having resided in the town for some time past, made up his mind early in the week to gather his personal property and seek new pastures. Accordingly, he packed his effects and, with his worthy spouse, made arrangements to leave the city on the late train Monday evening. He failed to let the news of his intended departure be generally known, however, for reasons which afterward developed in very rapid sequence. It seems that, during his business operations, Schmit had contracted several bills which he failed to settle. One of his creditors, a butcher, found out at about 9 o'clock Monday night that the wily restaurateur contemplated moving, and he lost no time in hunting up Constable Rogers and notifying him of the fact. Rogers in turn visited the house of Justice Bartholomew and in short order had out an attachment. Hurrying down to the depot, the officer seized upon a trunk belonging to Schmit. The Schmits, however, were very much dismayed when they found that their departure was to be delayed, and, after fishing around in his pockets, the husband sadly drew forth a few dollars, which he handed to Mr. Rogers. This was not enough to satisfy the butcher, who, Schmit as sorrowfully fumbled about in her clothes, bringing out several more coins, which she declared, with tears in her eyes, was all the money she had. Finding that there was no other way out of the scrape, after considerable haggling, Mr. Schmit, in desperation, dove down into his pockets and drew forth a huge buckskin sack, containing something over \$400 in gold, and counted out the necessary amount when his baggage was released. The final settlement in the case was concluded in the Township Court yesterday morning, and the Schmits finally started anew on their journey to the depot as fast as they could travel.

AN INSANE PHOTOGRAPHER.

The photographer, George N. Dewey, was adjudged insane yesterday when examined before Judge Shaw and a lunacy commission consisting of Drs. MacGowan and Wernick, and ordered committed to the insane asylum at Agnew. Several days ago, Dewey was arrested and confined at the instance of his relatives, but he seemed soon afterward to have regained his senses almost completely, and he was therefore released. Since then, however, his former peculiar mania has again come upon him, and he is now considered to be almost hopelessly insane. When under the influence of the attack, Dewey believes himself to be a millionaire, and constantly keeps at work upon some imaginary scheme. For instance, his latest idea is to build a railroad around the United States, bringing up at Chicago as a terminus. He has already had the appearance of a demented man, but during the examination yesterday listened intently to all that was said, though he plainly failed to realize what he was about to be committed. Mrs. Dewey came in for a moment before the Sheriff conducted the insane man back to the jail, when a very affecting meeting took place between the husband and wife. Dewey will be taken north today.

THE CHINESE MURDERER.

The trial of Quon Tey Ying, the Chinese murderer, was resumed yesterday morning at 10 o'clock in Judge Smith's court. After Dr. MacGowan had been first examined, a number of Ying's countrymen were put on the stand, and the taking of their testimony lasted throughout the remainder of the day. The Chinamen all gave evidence to much the same effect, telling how, on the night of the murder, they heard several pistol shots and also a woman's cry for help. Ah Lip, the man who received two bullets from Ying's revolver in his body, gave a somewhat disconnected, though intelligible, account of the affair, and positively identified Ying, or Moon, as he is called, as being the person who did the shooting and cutting.

THE CITY BANK CASE.

Upon the reading and filing of the receiver's petition in the case of Miller vs. the City Bank, Judge Shaw yesterday ordered that all claims of the depositors, as shown by the statement of the receiver, filed on July 22, should stand approved and allowed as unpreferred claims against the fund coming into the hands of the receiver, except of persons who have intervened or shall intervene within sixty days, claiming a preference of the claims of persons against whom said bank has an offset, and except also such claims as the receiver may decide to contest, or all those claims which have been assigned, in such case on satisfactory proof to the court of such assignment.

A BRUTAL ASSAULT.

A Drunken Man Badly Used Up on a Santa Monica Train.

Upon one of the afternoon trains from Santa Monica yesterday, there was a passenger aboard who had imbibed so much "red liquor" as to be in that silly, maudlin state which makes these people somewhat of a nuisance. Sitting directly behind him, was a fellow with his hat down over his eyes, and appearing to be asleep. The drunken man, probably desiring to be funny, but without any malice, reached over and lifted up the hat of the sleeper, whereat the latter, with many pretensions of being a gentleman, as he affirmed, but sadly lacking almost every gentlemanly quality, made an unwarranted and brutal attack upon the poor drunken man, twisting his nose until the blood flew in large quantities, and striking him several times upon the face. The man with a jag was too full to defend himself, and all he could do was to take such punishment as the big, ruffianly fellow gave him.

When his anger seemed appeased, the "gentleman" desisted; not without first impressing upon the passengers that he had made an extremely cowardly attack upon a poor, defenseless inebriate.

Licensed to Wed.

Marriage licenses were issued yesterday at the office of the County Clerk as follows:

W. M. Boone, a native of Missouri, aged 16 years, to Anna Smith, a native of Kentucky, aged 35 years; both residents of this city.

Nicholas Sheridan, a native of New York, aged 49 years, to Mrs. Mary J. Stearns, a native of Kansas, aged 34 years; both residents of Pasadena.

William Grant Mathis, a native of Illinois, aged 29 years, a resident of this city, to Bernice Winans, a native and resident of Illinois, aged 29 years.

Baseball Revival.

The Los Angeles Baseball Club has returned, and will begin the first home series with the Oakland club at Athletic Park this afternoon. The Angels have certainly been "hoodooed" during their entire Northern trip, and a little waking-up in the coming-home games will be much appreciated by lovers of the sport. It remains to be seen how much the team will affect the future playing of the team.

It is no accident. It is no lack of enthusiasm that a continual growth is made each week in the trade of this house. Dollar corsets for 50c. Warner's Coraline. This is no accident, it is a clearing out of Warner's line to increase the Royal Worcester line. Warner's French Model, \$1.50 quality, closing out for 75c. It is half price for the French Model. This is no accident, it is closing out the line at half price. Warner's No. 444, closing out at 88c, regular \$1.75 quality. The Royal Worcester Corset Co. makes over 100 different corsets. It is a large line, we are selecting the best of the line and adding new numbers, as we close out the odds and ends. Monday's sale was the largest we ever had in corsets. Tuesday's sale of corsets was very large. All last week and the week before the corset trade was large, and yet this very large trade is constantly growing. Ball's Kabo Corsets, in a few numbers only, half price. A fine \$2 corset, in size 18 only, for 50c. A few summer corsets half the original price. Children's corset waists, children's corsets, all at half price. Ferris Waists one-half price. In a short time every odd corset in the house will be out, then we will devote our entire energy to selling Royal Worcester Corsets—the best of all good fitting corsets. A few jackets for two-bits, or 25c each. They are better than they look. The Cloak Department must be kept before the public. Two-bit jackets today, only a few left. Twenty cent wash dress goods down to 12c. 50c wash dress goods down to 25c, 45c wash dress goods down to 25c. Calico and cambrie wrappers \$1.50 upward. Children's mull caps, baby bonnets, 10c, 15c, 20c, 25c. It is buying time for laces. New laces in all widths. Windsor ties 15c, 25c, 50c. Gents' fine scarfs 25c. PASSENGER RATES.

The Meeting Making Little Progress.

San Diego's New Railroad Gets a County Franchise.

Reported That the Southern Pacific Will Economize.

San Francisco Financial Officials Go North to See About Taxes—Local and Personal—Railroad Mention.

It is reported that the Southern Pacific Company is contemplating more retrenchment. Now the economy is to be gained by taking off a number of trains and laying off a corresponding number of crews. It is said that one of the trains to be taken off on the 1st prox. will be the Santa Barbara local, which now leaves Los Angeles at 4:30 p.m. Passengers for Santa Barbara will then go on the San Francisco express, connecting with a short and far train at Sausalito. A patron of the road who lives up there says that this move will be unpopular with a great many people, especially those who had granted right-of-way for the Burbank and Chatsworth Park line on a promise of improved train service. Another train that is to go off on the 1st is the local to Colton called the "flyer." Other trains on various branches are to be taken off, according to the report, which is not official. Economy is now the watchword on all the railroads.

PASSENGER AGENTS WORKING.
CHICAGO, July 25.—(By the Associated Press.) A long and animated session of the Western Passenger Association was held today to discuss World's Fair rates, but no conclusion was reached. The Santa Fe submitted a net proposition which will be considered tomorrow. The war rates made effective by the Great Northern and Northern Pacific were introduced in the new territory today. St. Louis roads are beginning to apply them to business between St. Louis, Salt Lake and Ogden, making the rate between those points \$31.

THE SAN DIEGO AND PHOENIX.
The application made by the San Diego and Phoenix Railway Company for a franchise on National avenue, through Chula Vista, came up before the supervisors this morning. A recent law requires that such franchise must be granted, not merely to an applicant, but after due advertisement, to the highest bidder. The San Diego and Phoenix was the only bidder, and its bid was \$30.

A petition in protest was received, however, signed by sixteen owners of property on the avenue, objecting to the use of National avenue for railway purposes. The petition was headed by the San Diego Land and Town Company, per John Boal, manager. Among other signers were Warren and Frank Kimball, J. L. Griffith and Parsons Shaw. Warren Kimball and Mr. Shaw did the talking for their side. Both objected to the franchise on National avenue, because they wanted that avenue reserved for the public, and, therefore, private land, and chiefly owned by the Land and Town Company, every foot of which would have to be condemned before a right-of-way could be secured.

President D. C. Reed and Mayor Carlson spoke for the railroad company. Mr. Reed held that this protest was simply another step in the Land and Town Company's efforts to block the San Diego and Phoenix, and he was surprised to learn that Frank and Warren Kimball were with the Land and Town Company in this matter. He pointed out that the California Southern Railway Company, of which the Land and Town Company is a mere creature, after violating its pledges and moving its offices and machine shops from National City, is now actually leasing the National City wharf to move it to Los Angeles. The California Southern he said, had violated every pledge they had made, and yet the victims of those violated pledges were opposed to an honest effort to afford them relief.

Mayor Carlson became vigorously personal, and described some of the people who were now suddenly striking at the San Diego and Phoenix project as "rattlesnakes," who were doing no good to the community themselves, but were a threatening danger in the path of progress. In reply to some arguments presented, Carlson said it had been urged that the San Diego and Phoenix follow a route which would take it through what is called Telegraph canyon. Every acre approaching that canyon is owned by the Land and Town Company. Carlson further claimed that no injury would be done the residents along National avenue by the construction of a railway, and pointed to the fact that railway tracks now lay before the residences of both Frank and Warren Kimball. "If those tracks were to now be removed," continued Carlson, "the Kimballs would be out early with injunctions against it."

President Reed answered a suggestion

tion that the San Diego and Phoenix buy the Coronado Hotel by saying that the Belt line was built during the boom, and was heavily bonded, so that it could not be bought at satisfactory figures.

SCRAP HEAP.
The Southern Pacific's third excursion from Arizona to the ocean will arrive here the 8th.

The washout on the Atlantic and Pacific at Truxline is repaired, and trains are running as usual.

Treasurer F. H. Pattee of the Santa Fe's Southern California lines went to Sacramento yesterday in the general manager's private car. Mr. Pattee was accompanied by other officials of the financial department.

F. A. Jones, who was agent for the Santa Fe at Santa Ana, but was checked out in order to be transferred to Sacramento, has been appointed commercial agent instead, with territory from Orange to Escondido. The expected change at San Bernardino did not take place.

FAILED TO SETTLE.

A "General Manager" Who is in Urgent Demand.

Walter E. Brown's Business Associates Very Anxious to Meet the Gentleman With a View to a Settlement.

Last fall Walter E. Brown of National City put in a month of very active work between Los Angeles and San Bernardino organizing a company called the Southern California Land and Water Company. He succeeded in procuring the assistance of several men who had formerly known him in National City and reposed confidence in him, together with other parties in Los Angeles, and in a short time the company was chartered and organized under apparently very favorable auspices, and launched upon the business world with Mr. Brown as general manager.

Mr. Brown gave an abundance of good talk and had a number of schemes and propositions already on hand, ripe for business, whereby the company could at once begin to realize large profits on its stock.

As all other members of the company were men holding positions which required most of their time, they congratulated themselves on having such a promising and able person as Mr. Brown to conduct the affairs of the company.

According to the by-laws the general manager was to "receive all moneys paid into the company and pay the same immediately to the treasurer." He was also required to furnish bonds for the faithful discharge of his duties.

When the company was ready to do business Mr. Brown's bond was not ready, for reasons which appeared very satisfactory, but would be at the next meeting. Mr. Brown naming some very responsible men who were to indemnify him, one of them being in Sacramento at the time.

Under these circumstances Mr. Brown was allowed to proceed and start work. After a few days, however, several hundred dollars worth of stock having been sold and no money turned over to the treasurer, Mr. Brown was hunted up and an explanation demanded.

He promised to straighten matters at once, and at the same time named a date for a meeting to be called for the purpose of presenting his bond for acceptance.

The meeting was called on the date named by Mr. Brown, but he failed to put in an appearance, and his failure to pay over to the treasurer the money belonging to the company.

Since that time Mr. Brown has been a very scarce man, at least to any members of the company. He is supposed to be in San Diego or National City, but so far has shown no particular desire to meet his former business associates, who are unable to get any redress.

The board of directors of the company is composed of F. Parker of San Bernardino, and P. A. Barker, Robert Wiley, Hiram Letthead, F. W. Madison, William Ferguson and the absent Brown.

Most of the men are employees of the Southern California Railway, who made Brown's acquaintance in National City, and they are anxious to have a conference with their general manager. It is also stated that other people in Los Angeles are very anxious to again see Mr. Brown on account of sundry items of indebtedness, which in the pressure of business he forgot to liquidate.

NOTICE TO DEPOSITORS OF CITY BANK.

To the depositors of the City Bank, and those holding unpaid drafts of said bank:

Please take notice that in the action of Margaret E. Miller against the City Bank, in the Superior Court of Los Angeles county, Department 5, No. 19,733, on July 25, 1893, an order was made by the Hon. Lucien Shaw, judge of said court, in substance as follows, to wit:

"And it further appearing to the court from said petition, and from the statement filed by said receiver in said action on July 22, 1893, that the said defendant bank is indebted to numerous persons as depositors, whose claims are uncontested, and that it would cause unnecessary inconvenience and expense to such claimants to in each instance intervene in this action to prove their said claims, now, therefore, it is ordered as follows:

"That all claims of depositors, as shown by the said statement of the receiver aforesaid, against said defendant bank, shall stand as approved, and allowed as preferred claims against the fund coming into the hand of the receiver in said action.

"Except, first—The claims of those persons who have intervened or shall intervene within sixty days, claiming a preference.

"Except, second—The claims of those persons against whom said bank has an offset; and also all other claims which the receiver shall decide to contest by refusing to issue the certificate herein-after mentioned.

"Except, third—All those claims which have been assigned, and in such cases, on satisfactory proof to the court of such assignment, the said claims shall stand as approved in favor of the assignees respectively; and all persons holding claims against said bank as assignees of depositors are required to make proof of such assignments to the court within sixty days from the first publication of the provisions of this order as hereinafter provided.

"That after the expiration of said sixty days, the receiver be authorized to deliver a certificate of allowance to each of said depositors, or the assignee thereof, who has made proof as aforesaid, and whose claim is, to stand, allowed as aforesaid, and that no further evidence of such depositor's right to share in any dividends as a general creditor shall be required. Such certificates shall contain such provisions for future assignments of the claims represented thereby as the receiver or the court shall determine.

"That the provisions of this order shall also apply to creditors whose claims are represented by bills of exchange purchased from the bank, and which have not been paid."

Date of first publication, July 25, 1893.

THE KEELEY CURE.

The Treatment Commenced at the Soldiers' Home.

A Class of Twenty-three Has Been Formed, Who Will Be at Once Put Through the Regular System—Papers for the Veterans.

The administering of the Keeley remedies for the cure of the liquor and morphine habits has at last been commenced at the Soldiers' Home. Dr. Butler, the physician in charge, received the medicines by freight on Monday, and on the same day a class of veterans was formed, numbering twenty-three, who will, for the next four weeks, receive this celebrated treatment, and, it is to be hoped, will graduate from the class thoroughly sober, respected men. There are a great many men here who are bright, intelligent, well-read gentlemen, whose only fault is a too great love for the intoxicating cup, and it is through this alone that they have been compelled to enter the home. If these men can be reclaimed through Dr. Keeley's remedies, nearly every one will be able to take a discharge from the home and become honored citizens of the country in respectable callings out in the world.

Some time ago the librarian of the home sent out circulars to all of the principal newspapers of the country, asking that daily or weekly copies of their journals be forwarded for use at the library. A number of papers have responded to this application, and now the librarian is receiving daily copies of the New York Times, the Record and Evening Telegram of Philadelphia, the Inter Ocean and Tribune of Chicago, the San Francisco Call, Fresno Republican, Sacramento Record-Union, and the San Francisco Weekly Examiner. Besides these, it is expected that the other journals in the leading cities will find their way to the library to entertain the large number of veterans. The first contribution of money for the library fund from outside parties was received the other day from Mrs. E. S. Stover of Albuquerque, N. M., who was on a visit to the home, and she took with her a number of the circulars, and assured the librarian that she would do more for this cause among her friends at her home. Besides this contribution, there is some money on hand that has been raised by entertainments given by the home minstrel club, and the officials are very hopeful that ere long the library will be put on a much better basis.

A meeting of John A. Martin Post, Tuesday evening, impressive services were conducted, at which time the new post commander was installed.

The "MACS" MUST MOVE. Santa Monica Authorities Ordering Them Out of Town.

The police of Santa Monica have commenced a warfare upon that class of men who obtain their living from the earnings of fallen women. Ever since the officers of this city have pursued this policy, they have met with worthy members of society, they have drifted to neighboring towns, and especially has this class become numerous in Santa Monica, much to the displeasure of the citizens thereof.

During the last few days, several of these fellows have been arrested down there for vagrancy, and in each case were suspended for a week, in order to give the fellow an opportunity to go to Santa Monica, whither he signified his intention of departing.

It is also reported that there is a regular faro bank and general gambling-house running here, and has been for some time. It is just possible that the authorities will also make an effort to shut this place up. It is a well-known fact that wherever places of this kind exist there will also be found a very undesirable class of hangers-on, and to clean out the disreputables, and their source of income must be stopped.

The W. C. Fursey Company sells the famous Glenwood cook stoves and ranges, acknowledged the world over to be the very best. They are more convenient, last longer and consume less fuel than any other stove known. Do not fail to see them.

EXPULSED—every poison and impurity of your blood, by Dr. Pierce's Golden Medical Discovery. It cures a clear skin and a clean system. Tetter, Salt-rheum, Eczema, Erysipelas, Enlarged Glands, Tumors and Swellings, and all Blood, Skin, and Scalp Diseases, from a common blotchy eruption to the worst scrofula—these are perfectly and permanently cured by it.

In building up needed flesh and strength of pale, puny, scrofulous children, nothing can equal it.

Unlike the ordinary spring medicines or sarsaparilla, the "Discovery" works equally well at all seasons. All the year round, and in all cases, it is guaranteed, as no other blood medicine is. If it ever fails to benefit or cure, you have your money back. It's not only the best blood-purifier, but it's the cheapest. You pay only for the good you get.

Buy of reliable dealers. With any others, something else that pays them better will probably be urged as "just as good." Perhaps it is, for them; but it can't be, for you.

During the ten years that I have been located in Los Angeles I have treated and cured over 400 people who were afflicted with nearly every form of the various diseases that human flesh is heir to. Fully 97 out of every 100 that I have cured were cases that could not find relief in the other systems of medicine as practiced in Europe and America. Over 400 were given up by doctors and friends to die. Among the list of diseases I have cured are Piles, Rheumatism, Dyspepsia, twenty-five forms of Consumption, Asthma, Bright's Disease, Blindness, Insanity, twelve forms of Heart Disease, Cancer, Tumors, Skin and Blood Diseases of every description.

In my system of medicine there are over 400 different diseases. I cure 387 of them. I use over 2000 kinds of herbs (no poisons), which I import direct, and which have been used in China 500 years. I locate and describe all diseases by feeling the pulse, and in five minutes time. Consultation and examination free.
